BUSINESS MODELER

BUSINESS MODELING:

Define business processes using **BPMN 2.0**, specify business data and capture organization structure.

MODEL ANALYSIS:

Ensure model consistency, validate your model, search for related elements, evaluate change impact, and perform gap analysis.

MODEL PUBLISHING:

Publish business model in HTML, DOCX, and other formats based on a set of built-in report templates or your own template.

COLLABORATIVE MODELING IN TEAMS:

Work in team on the same business process model, manage model versions, and control access rights.
